Extract of feedbacks

- ❖ Would love to park my car near the jetty. Will there be enough space?
- ❖ I hope you get this service. Its about time
- ❖ Nice thought to be able to walk to work + it gives me time to read the paper on the ferry
- ❖ I live in Hobart (Battery Point) but as a chose not to drive a car I would love to have to be able to travel to places such as Opossum Bay and Kingston and Bruny Island by ferry. The times you listed don't take this type of use into consideration but I think that using the water to get around Hobart and surrounds is a wonderful idea. I hope it catches on - I moved here from Sydney three years ago and I have been surprised that no ferry service exists. Good luck with your proposal
- ❖ I would like the ferry service to leave opossum bay later, between 0945 and 1030. Depending on the numbers maybe the fare could be reduced \$4 could be a reasonable price as the bus is about \$3.50
- ❖ A ferry service to Kingston would be great; I work there Monday to Friday, excellent
- ❖ As a local I think there would need to be a discount offered as %5 each way for my partner and I would make it unaffordable for travel to work and back each day
- ❖ Have suggested this to the mayor and others. Dennes Point/Opossum Bay/Hobart. Can you get the polities to support this the way the Bruny Island Ferry is supported. Need to have passenger compartment enclosed for daily travelers. You have our support. Great tourist beat
- ❖ I would like to travel to Hobart. from Dennes Pt. and return
- ❖ There should be a weekend service that operates either side of lunch times
- ❖ The time it takes to get to Hobart will determine if I use the service. In addition, the service would have to depart from South Arm jetty - more central - better parking etc.
- ❖ Don't really see the benefit in it going across to Kingston - when it only takes 12 minutes to get from Kingston to the city??
- ❖ Please x 2 this survey. 2 family members completing at the same time. Also, would walk to Opossum Bay Jetty as I live nearby. I work in the City Centre
- ❖ I live at South Arm and would like the service from that Jetty so I can walk to the ferry - I doubt if I'd drive to OPB - might as well keep going to town
- ❖ Have holiday house at opossum Bay would be keen to use service for Sat morning trip to Constitution Dock, Salamanca Market. Would definitely book a trip to other places on the Derwent River – Excellent
- ❖ I honestly think this service would be supported by the o'bay and south arm locals as long as the cost was kept to a minimum. I think anymore than 15 return and its not worthwhile but great to see there might be a chance for this! Cheers, Chris
- ❖ I live about a ten minute walk from the jetty at opossum bay. A ferry service would be just fantastic and I have no doubt we would get more friends visiting us should they not have to take the drive
- ❖ I would go to visit friends in Opossum Bay more if there was a ferry. GREAT IDEA
- ❖ I would like to see a weekend ferry service between Hobart/Kingston and OB morning and afternoon. I live in Taroon and love the idea of a day over at OB as used to happen when my grandparents were young. The drop-down boxes provided don't have options for weekend Hobart/Kingston-OB service
- ❖ I am definitely in favour of the ferry service. Fantastic, lets use our water space
- ❖ Fantastic! About time we use our water ways effectively. I live in Kingston and would like to travel to Opossum Bay for the weekends. You have more sun than us here
- ❖ I am in Bellerive and like the idea to travel to Opossum Bay for the weekend
- ❖ If there is enough parking space I leave my car at Opossum Bay and take the ferry to town
- ❖ A ferry service between Dennes Point and Hobart would be a miracle
- ❖ Much needed, Will keep people living here longer with better faster transport options
- ❖ I am looking at moving to the South Arm/Opossum Bay area mainly due to the positive experiences of community that I have seen in my time down there - from the Piggery Productions to benefit the school, the play group and now the jetty. It shows that these two communities love their place and are willing to work together to get things done
